Print both pages one-sided at Actual Size (100%). Turn off Fit or Shrink.

REAR / CABLE SIDE

TILE A / LEFT

PS5 Slim Disc

1 TB / horizontal placement

01 / FOOTPRINT

358 × 216 mm

Joined width × depth. The rectangle shows the body bounds, not its curved outline. Sony excludes projecting parts. Body height is about 96 mm; check height with feet fitted.

02 / ASSEMBLY

Cut both rectangles along the center of the outline. Put A on the left and B on the right with both REAR labels at the back. Match the short seam marks. Tape underneath; no gap or overlap.

REAR / CABLE SIDE

TILE B / RIGHT

Check the shelf

Airflow and plugs need space outside the cutout.

03 / AIRFLOW

100 mm of free space

Sony calls for at least 100 mm around each side. Cut out the strip below and place its short end against each outside edge. Keep side and rear vents clear. Avoid cramped cabinets.

04 / CABLE ROOM

At the rear, check your actual power and HDMI plugs.
Allow their natural bend without pressing them against the wall.
The airflow strip is not a cable-length allowance.

< JOIN AT LEFT EDGE

PRINT CHECK / Measure between end ticks before cutting.

0 **100 mm**

Reprint if not exact.

FRONT / DISC ACCESS

B / 179 × 216 mm

100 mm / AIRFLOW GAUGE

Cut out this strip separately.
Keep it off the joined tiles.
